WHAT WE DO.

We provide integrated technology and Dealer Services to Food Service and Specialty Retail industries. Our ongoing goal is to improve efficiency and efficacy for the Merchant while providing cost-effective POS technology, marketing, loyalty, and payment services to our clients with a personalized consultation and a turn-key point of sale solution. We offer a software suite that customizes solutions for a wide array of restaurants and retailers, from independent locations to national chains. Our focus is on helping our clients create meaningful relationships and providing genuine customer service.

TAP INTO NEW TECHNOLOGY FOR YOUR BREWERY

Revel has helped me resolve my largest challenge by being able to effectively track inventory in real-time. I can easily go onto the Management Console and see exactly which products have been sold, how many are left, and even be able to set alerts for low inventory numbers.

“

”

With a robust suite of features and proven cost savings, Big Eye POS Technology is here to increase the speed of service, efficiency, and security of your brewery. Manage inventory, employees, and reporting all from one management console. Save countless hours by quickly training employees on an intuitive interface and access real-time reporting from anywhere.

Key Benefits

Bar Tab Management

Keep track of all customer tabs in one place and complete transactions in a quick and efficient manner.

Engaging Digital Boards

Add a sleek and dynamic digital menu board to showcase beers, seasonal additions, and other menu items. Change your menu from the backend and push updates instantly.

Simplified Inventory Management

With a wide range of beer taps and menu items, inventory can get messy. Monitor stock levels in real-time and set low stock alerts so you know what to reorder and when.

True Offline Mode

Keep operations running smoothly and even process credit cards offline. Revel's Always On Mode automatically taps in when connectivity taps out.

Real-time Reporting

Keep a close pulse on your business with Revel's intelligent reporting suite. Quickly see best-selling items, sales summaries, inventory reports, and much more—all in real-time.

Cater to Customers

Between Revel's split bill functionality and Customer Relationship Management portal, your business can keep tabs on what customers are buying and design promotions around insights.

DELIGHT AND ENGAGE YOUR CUSTOMERS

Streamline Checkouts with a CDS

Utilize a Customer Display System (CDS) to improve customer checkout interactions and increase transparency. Integrate a Customer Display into your Revel System platform to enable your customers to engage throughout the checkout process, improve accuracy, and boost customer satisfaction.

- Empower Your Customers
- Increase Checkout Accuracy
- Create a Branded Experience

Take advantage of Big Eye POS Technology's loyalty partners. Fully integrated with your Revel system, your business can streamline the checkout process and inform customers of the loyalty program's perks with a Customer Display System.

“ The speed of service with the system is incredible. The forward facing register system is great. It cuts out mistakes, it gives them that feel good that their order is right. ”
